Amateur Craftsman's Cyclopedia Popular Science Monthly Editorial Staff 2011-09 Instructions for making toys, novelties, sporting equipment, models, furniture, house and garden accessories, and scientific instruments.
Japanese Bookbinding Kojiro Ikegami 1986-06 A third-generation traditional bookbinder gives easy-to-follow instructions for making all the major, historically important styles of Japanese bindings as well as traditional book cases—the custom-made folding boxes that afford handsome protection for Japan's exquisite books. The authoritative text, written by one of Japan's leading professional bookbinders, has been fully adapted for Western readers. Both American and Japanese suppliers of traditional tools and materials are provided and substitutes are recommended for items not readily available. For centuries the West has admired Japanese books, but only now can we make them ourselves and take full advantage of their creative possibilities. Stunning and practical, these bindings are ideal for preserving calligraphy, letters, artwork, and poems, for adding a distinctive touch to limited-edition books, and for use as diaries or gifts.

How to Build Your Own Workshop Equipment Arthur Wakeling 1952

We are committed to providing woodworkers like you with the most accurate and up-to-date plans and information -- including new ideas, product and tool reviews, workshop tips and much, much more.

America's Favorite Homes Robert Schweitzer 1990 During the first four decades of the twentieth century, prefabricated and catalogue homes grew in popularity and number. Built and occupied by farmers, merchants, the new armies of factory workers and other lower- and middle-class families, these are the modest homes that today line American streets. Using mail-order house catalogues from the time, Robert Schweitzer and Michael W. R. Davis chart the development of catalogue houses and their variations and include floor plans for many models. Students of architecture, whether amateur or professional, preservationists and academics will find in America's Favorite Homes a handy reference to those homes that soon will be eligible for historic designation.

Painting and Decorating Craftsman's Manual and *Text Book* Anon. 2016-08-26 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Fisher Body Craftsman's Guild John L. Jacobus 2013-07-01 The Fisher Body Craftsman's Guild was a national auto design competition sponsored by the Fisher Body Division of General Motors. This competition was for teenagers to compete for college scholarships by designing and building scale model "dream" cars. Held from the 1930s through the 1960s, it helped identify and nurture a whole generation of designers and design executives. Virgil M. Exner, Jr., Charles M. Jordan, Robert W. Henderson, Robert A. Cadaret, Richard Arbib, Elia "Russ" Russinoff, Galen Wickersham, Ronald C. Hill, Edward F. Taylor, George R. Chartier, Charles W. Pelly, Gary Graham, Charles A. Giblterra, E. Arthur Russell, William A. Moore, Terry R. Henline, Paul Tatseos, Allen T. Weidman, Kenneth J. Dowd, Stuart Shuster, John M. Mellberg, Harry E. Schoeff, and Ronald J. Will, are among those designers and design executives who participated in the Guild. The book also describes many aspects of the miniature model Napoleonic Coach and other scale model cars the students designed.
