presents a fully developed pedagogy based on problem-solving methods that promote reasoning and judgment and restore a sense of imagination and participation to classroom learning. It is designed to draw readers into the detective process that characterizes the work of professional historians and social scientists – sharing raw data, defining terms, building interpretations, and testing competing theories. An inquiry framework drives both the pedagogy and the choice of historical materials, with selections favoring the unsolved, controversial, and fragmented rather than the neatly wrapped up analysis of past events. Teaching World History as Mystery: Provides a balanced combination of

interestingly arranged historical content, and clearly explained instructional strategies. Features case studies of commonly and not so commonly taught topics within a typical world/global history curriculum using combinations of primary and secondary documents. Discusses ways of dealing with ethical and moral issues in world history classrooms, drawing students into persisting questions of historical truth, bias, and judgment.

Handy Military History Answer Book looks at the who, the what, the why, and the how of conflicts throughout history. It answers over 1,100 questions, from the mostly widely asked to the more obscure, such as: Who cast the first stone (of human history)? Who were the "Sea Peoples?" Is there anything to the story of Ancient Troy? Could Alexander the Great have conquered the early Roman Republic? How wealthy would each of Alexander's men been had the treasure at Persepolis been divided? How many Romans lost their lives at the Battle of Cannae? Why did people underestimate Julius Caesar when he was in his thirties? How many men, and auxiliary fighters, were there in a Roman legion? Was the Battle of Actium truly decisive? And what way? Which precious metal did

the Vikings prefer above all others? Do we even have his name--Genghis Khan--right? Who employed the composite bow with greater effectiveness: the Arabs or the Turks? Why did Pope Urban II go to central France in 1095? Where did Richard the Lion-Heart get his nickname? Why on earth did Hitler code-name his invasion of Russia for a German emperor who drowned? Who was the greater wit: Voltaire or King Frederick the Great? About whom did King George II remark: "Mad, is he? Well I hope he bites some of my other generals?" What great poet spent years gathering food and wine for the Spanish Armada? What was the price for King Francis' freedom, in 1526? How long did it take to learn how to use the longbow? Studying any subject at degree level is an investment in the future that involves significant cost. Now more than ever, students and their parents need to weigh up the potential benefits of university courses. That's where the Why Study series comes in. This series of books, aimed at students, parents and teachers, explains in practical terms the range and scope of an academic subject at university level and where it can lead in terms of careers or further study. Each book sets out to enthuse the reader about its subject and answer the crucial questions that a college prospectus does not.

"*Why Won't You Just Tell Us the Answer?*" Bruce A. Lesh 2011 Every major measure of students' historical understanding

since 1917 has demonstrated that students do not retain, understand, or enjoy their school experiences with history. Bruce Lesh believes that this is due to the way we teach history -- lecture and memorization. Over the last fifteen years, Bruce has refined a method of teaching history that mirrors the process used by historians, where students are taught to ask questions of evidence and develop historical explanations. --from publisher description.

The Answer is Never
Jocko Weyland 2003
Skateboarding is one of the great outlaw subcultures - combining death-defying stunts, cutting-edge fashion, and an all-round bad attitude. This is the story of the people who forged and inspired that culture, like the legendary Dogtown crew: Alva, Peralta, Adams, - kids bailing out scummy backyard pools to skate

in them, fleeing from security guards, and inspiring each other to ever-greater feats. A scene which eventually led Tony Hawk to be the first skater to earn a million dollars a year. Written as a history and personal memoir by someone immersed in the skateboard world for over twenty years, The Answer Is Never is not just the story of the heroes, but the exploits of anyone who's ever picked up a skateboard.
