They Found Our Engineer Michael Bishop 2011 The British Land Rover 4x4 has grown from 1948 to become one of the world's leading automotive brands. Exactly how it all came together back in the late 1940's and early 50's has been the topic of interest and debate for many years. This was until two Australian enthusiasts, Michael Bishop and Alex Massey quite literally stumbled across senior member of the original Land Rover development team, Arthur Goddard living in Brisbane, Australia in 2009. The discovery led to many of the myths and tales surrounding the early vehicles to be heard as it happened from Arthur's point of view. Then to a trip by Arthur to visit his old work place in Solihull and to the vehicle that he helped bring to life back in 1948. The book contains both a technical and human side to this incredible story as well as a great reunion between Arthur and his old colleague Spen King who went onto design the Range Rover in the 1960's. This is truly a unique story from the time of post War World two Britain to modern day Australia and how the iconic 4x4 grew up so quickly in the 1950's to become the world leader that it is today.

Land Rover Discovery James Taylor 2014-04-30 A quarter of a century ago, the Land Rover Discovery defined at a stroke how traditional 4 x 4 all-terrain ability could co-exist with family-estate practicality at an affordable price. Since 1989, the Discovery has gone through several iterations, but its essential qualities have remained unchanged. Practical, capable, and above all completely distinctive - the stepped roof seemed odd at first but now defines the Discovery shape - the Discovery has gone on to become one of Land Rover's best-loved products. Land Rover Discovery - 25 Years of the Family 4 x 4 looks in detail at the four generations of Discovery, including full specification details and production histories. Topics covered include the design and development of the original Discovery in the late 1980s, and the move into North America; the new 300Tdi engine and R380 gearbox of 1994, and the BMW takeover; Series II models of 1998-2004, and Land Rover's move from BMW to Ford; Discovery 3/'LR3' - 2004-2009, and the new TDV6 engine, developed by Jaguar; Discovery 4/'LR4' - the all-purpose family luxury car; special editions and derivatives of all four generations of Discovery, including Discoverys for the emergency services and the Camel Trophy and G4 Challenge competition vehicles. Superbly illustrated with 351 colour photographs.
