The Making of the New Negro Anna Pochmara 2011 The Making of the New Negro examines black masculinity in the period of the New Negro/Harlem Renaissance, which for many decades did not attract a lot of scholarly attention, until, in the 1990s, many scholars discovered how complex, significant, and fascinating it was. Using African American published texts, American archives and unpublished writings, and contemporaneous European discourses, this book focuses both on the canonical figures of the New Negro Movement and African American culture, such as W.E.B. Du Bois, Booker T. Washington, Alain Locke, and Richard Wright, and on writers who have not received as much scholarly attention despite their significance for the movement, such as Wallace Thurman. Its perspective combines gender, sexuality, and race studies with a thorough literary analysis and historicist investigation, an approach that has not been extensively applied to analyze the New Negro Renaissance.

Literary Research and the American Modernist Era Robert N. Matuozzi 2008-07-31 Characterized by its move away from Romanticism and toward mundane, every day subjects, as well as incorporating such ideas as metanarrative, stream of consciousness, and disjointed timelines, the American Modernist Era was at its heyday during the years 1914-1949. It produced such great authors as Ernest Hemingway, William Faulkner, and F. Scott Fitzgerald, and memorable works like *As I Lay Dying* and *The Great Gatsby*. Literary Research and the American Modernist Era offers the scholar and researcher a clear introduction to the best contemporary library resources and practices for researching American modernist writing. Graduate students, advanced undergraduates, researchers, and scholars specializing in American modernist writing will improve their information skills and fluency, whether in the real or the virtual library. Even those lacking access to some of the resources described here can profit from this overview of literary research because it will help them frame questions, indicate where to go for answers, and demonstrate useful connections between many of the secondary scholarly sources. This guide offers a coherent account of how contemporary research skills and resources can complement one another in helping the scholar effectively deal with typical challenges they encounter in their work

The Worlds of Langston Hughes Vera M. Kutzinski 2012-10-15 The poet Langston Hughes was a tireless world traveler and a prolific translator, editor, and marketer. Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In *The Worlds of Langston Hughes*, Vera Kutzinski contends that, for writers who are part of the African diaspora, translation is more than just a literary practice: it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated—and often mistranslated—are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos Aires, Mexico City, and of course Harlem. The result is a fresh look at Hughes, not as a solitary author who wrote in a single language, but as an international figure at the heart of a global intellectual and artistic formation.

Pronouns in Literature Alison Gibbons 2018-01-04 This edited collection brings together an international, interdisciplinary group of scholars who together offer cutting-edge insights into the complex roles, functions, and effects of pronouns in literary texts. The book engages with a range of text-types, including poetry, drama, and prose from different periods and regions, in English and in translation. Beginning with analyses of the first-person pronoun, it moves onto studies of the subject dynamics of first- and second-person, before considering plural modes of narration and how pronoun use can help to disperse narrative perspective. The volume then debates the functional constraints of pronouns in fictional contexts and finally reflects upon the theoretical advancements presented in the collection. This innovative volume will appeal to students and scholars of linguistics, stylistics and cognitive poetics, narratology, theoretical and applied linguistics, psychology and literary criticism.

Examines his involvement with socialist movements of the 1920s and 1930s and contends that the goal of overthrowing white oppression produced a "socialist joy" expressed repeatedly in his later work, in spite of the anticommunist crusades of the cold war"--Provided by publisher.

Accessing the Classics: Great Reads for Adults, Teens, and English Language Learners

La Vergne Rosow 2005-12-30 Help readers improve reading skills while stimulating their appreciation and increasing their understanding of great literature. Using a scaffolding approach, this guide leads readers from simple and engaging reads to more challenging texts, and simultaneously cultivates their interest and skills. An invaluable resource for middle and high school, ABE and ESL educators, as well as for readers' advisors. All readers—even those still learning to speak English—can enjoy the delights and benefits of great literature with the help of this motivational and practical book guide. Rosow takes you on a journey through the history of Western literature, beginning with ancient myths and moving to medieval tales and classics of the Renaissance, Romantic Movement, and Modernism. Along the way, she shows you how to give readers easy access to some of the best literature of all time. Scores of collections focus on such ancient and enduring stories as Gilgamesh, Beowulf, the tales of Chaucer; historical masterpieces of William Shakespeare, Jane Austen, Edgar Allan Poe, Charles Dickens; and stellar names of more recent times, such as Virginia Woolf, John Steinbeck, Ernest Hemingway, and J.R.R. Tolkien. Each carefully selected collection lists an assortment of titles, ranging in reading level and arranged progressively from simple renditions, such as picture book re-tellings, through more advanced selections and readings where audio versions and simpler formatting support the reader, and on to the most challenging reads. Author profiles and narrative, as well as detailed descriptions of each title provide further insights into the story lines and features of the books; while building a scaffold of reading experience and knowledge to help readers better understand the texts. For example, the Mark Twain collection begins with a brief biographical sketch of the author, followed by descriptions of two illustrated books about the author and two readers' theatre skits based on his work. A collection of Twain's short stories is recommended next, and then several illustrated versions of his novels, and an illustrated edition of Twain's memoir, *Life on the Mississippi*, which is supported by an audiotape version. Each recommended title is rated as start here, next read, support here, or challenging read; and related reads, and audio and video versions are listed when appropriate. The author also notes author and student favorites, titles with exceptional illustrations, and other features of interest. Focus is on authors and titles of the Western canon that are generally lu2768 le in library collections. Because some of the titles cited are older editions, this is a valuable collection development tool in libraries; as well as an essential resource for readers' advisors, Adult Basic Education, and English as Second Language educators, and young adult educators and librarians. Young adult and adult or Grades 9 and up.

Committed to Memory Cheryl Finley 2018-07-03 How an eighteenth-century engraving of the slave ship became a cultural icon of black resistance, identity, and remembrance One of the most iconic images of slavery is a schematic wood engraving depicting the human cargo hold of a slave ship. First published by British abolitionists in 1788, it exposed this widespread commercial practice for what it really was--shocking, immoral, barbaric, unimaginable. Printed as handbills and broadsides, the image Cheryl Finley has termed the "slave ship icon" was easily reproduced, and by the end of the eighteenth century it was circulating by the tens of thousands around the Atlantic rim. *Committed to Memory* provides the first in-depth look at how this artifact of the fight against slavery became an enduring symbol of black resistance, identity, and remembrance. Finley traces how the slave ship icon became a powerful tool in the hands of British and American abolitionists, and how its radical potential was rediscovered in the twentieth century by black artists, activists, writers, filmmakers, and curators. Finley offers provocative new insights into the works of Amiri Baraka, Romare Bearden, Betye Saar, and many others. She demonstrates how the icon was transformed into poetry, literature, visual art, sculpture, performance, and film--and became a medium through which diasporic Africans have reasserted their common identity and memorialized their ancestors. Beautifully illustrated, *Committed to Memory* features works from around the world, taking readers from the United States and England to West Africa and the Caribbean. It shows how contemporary black artists and their allies have used this iconic eighteenth-century engraving to reflect on the trauma of slavery and come to terms with its legacy.

"Visualizing Haiti in U.S. Culture, 1910?950 " Lindsay J. Twa 2017-07-05 From the late 1910s through the 1950s, particularly, the Caribbean nation of Haiti drew the attention and imaginations of many key U.S. artists, yet curiously, while significant studies have been published on Haiti's history and inter-American exchanges, none analyze visual representations with any depth. The author calls not only on the methodologies of art history, but also on the interdisciplinary eye of visual culture studies, anthropology, literary theory, and tourism studies to examine the fine arts in relation to popular arts, media, social beliefs, and institutional structures. Twa emphasizes close visual readings of photographs, illustrations, paintings, and theatre. Extensive textual and archival research also supports her visual analysis, such as scrutinizing the personal papers of this study's artists, writers, and intellectuals. Among the literary and artistic luminaries of the twentieth century that Twa includes in her discussion are Richmond Barth?Eldzier Cortor, Aaron Douglas, Katherine Dunham, Langston Hughes, Zora Neale Hurston, Alexander King, Jacob Lawrence, James Weldon Johnson, Lo?Mailou Jones, Eugene O?Neill, and William Edouard Scott. Twa argues that their choice of Haiti as subject matter was a highly charged decision by these American artists to use their artwork to engage racial, social, and political issues.

Terrorism Versus Democracy Paul Wilkinson 2011-02-01 This book examines the terrorist networks that operate globally and analyses the long-term future of terrorism and terrorist-backed insurgencies. Terrorism remains a serious problem for the international community. The global picture does not indicate that the 'war on terror', which President George W. Bush declared in the wake of the 9/11 attacks, has been won. On the other hand it would be incorrect to assume that Al Qaeda, its affiliates and other jihadi groups have won their so-called 'holy war' against the Coalition against Terrorism formed after 9/11. This new edition gives more attention to the political and strategic impact of modern transnational terrorism, the need for maximum international cooperation by law-abiding states to counter not only direct threats to the safety and security of their own citizens but also to preserve international peace and security through strengthening counter-proliferation and cooperative threat reduction (CTR). This book is essential reading for undergraduate and postgraduate students of terrorism studies, political science and international relations, as well as for policy makers and journalists.

The Life of Langston Hughes Arnold Rampersad 2002-01-10 February 1, 2002 marks the 100th birthday of Langston Hughes. To commemorate the centennial of his birth, Arnold Rampersad has contributed new Afterwords to both volumes of his highly-praised biography of this most extraordinary and prolific American writer. In young adulthood Hughes possessed a nomadic but dedicated spirit that led him from Mexico to Africa and the Soviet Union to Japan, and countless other stops around the globe. Associating with political activists, patrons, and fellow artists, and drawing inspiration from both Walt Whitman and the vibrant Afro-American culture, Hughes soon became the most original and revered of black poets. In the first volume's Afterword, Rampersad looks back at the significant early works Hughes produced, the genres he explored, and offers a new perspective on Hughes's lasting literary influence. Exhaustively researched in archival collections throughout the country, especially in the Langston Hughes papers at Yale University's Beinecke Library, and featuring fifty illustrations per volume, this anniversary edition will offer a new generation of readers entrance to the life and mind of one of the twentieth century's greatest artists.

African American Literature in Transition, 1930-1940: Volume 10 Eve Dunbar 2022-03-31 This book illustrates African American writers' cultural production and political engagement despite the economic precarity of the 1930s.

Struggles for Representation Phyllis Rauch Klotman 1999 *Struggles for Representation* examines over 300 non-fiction films by more than 150 African American film/videomakers and includes an extensive filmography, bibliography, and excerpts from interviews with film/videomakers. In eleven original essays, contributors explore the extraordinary scope of these

aesthetic and social documents and chart a previously undiscovered territory: documentaries that examine the aesthetic, economic, historical, political, and social forces that shape the lives of black Americans, as seen from their perspectives. Until now, scholars and critics have concentrated on black fiction film and on mainstream non-fiction films, neglecting the groundbreaking body of black non-fiction productions that offer privileged views of American life. Yet, these rich and varied works in film, video, and new electronic media, convey vast stores of knowledge and experience. Although most documentary cannot hope to match fiction film's mass appeal, it is unrivaled in its ability to portray searing, indelible impressions of black life, including concrete views of significant events and moving portraits of charismatic individuals. Documentary footage brings audiences the moments when civil rights protestors were attacked by state troopers; it provides the sights and sounds of Malcom X delivering an electrifying speech, Betty Carter performing a heart-wrenching song, and Langston Hughes strolling on a beach. Uniting all of this work is the "struggle for representation" that characterizes each film--an urgent desire to convey black life in ways that counter the uninformed and often distorted representations of mass media film and television productions. African American documentaries have long been associated with struggles for social and political empowerment; for many film/videomakers, documentary is a compelling mode with which to present an alternative, more authentic narrative of black experiences and an effective critique of mainstream discourse. Thus, many socially and politically committed film/videomakers view documentary as a tool with which to interrogate and reinvent history; their works fill gaps, correct errors, and expose distortions in order to provide counter-narratives of African American experience. Contributors include Paul Arthur, Houston A. Baker, Jr., Mark F. Baker, Pearl Bowser, Janet K. Cutler Manthia Diawara, Elizabeth Amelia Hadley, Phyllis R. Klotman, Tommy Lee Lott, Erika Muhammad, Valerie Smith, and Clyde Taylor.
