The Greatest Networker in the World John Milton Fogg 1997 "The MLM Classic." --Richard Poe, author of Wave 3 Network marketing is a burgeoning field, and it can be a frustrating and difficult experience. There are many who have achieved minimal success, and many more who have made no money at all. With these discouraging figures, how can one become a member of the successful elite? Millions agree that the best way to do this is to spend some time with The Greatest Networker in the World. John Milton Fogg's extended parable is the story of a young man on the verge of quitting the multilevel marketing business. As he prepares to give his final opportunity meeting, he meets the individual everyone refers to as The Greatest Networker in the World. This warm and wise man takes in his young counterpart and shows him the trade secrets so he too can become a successful network marketer. The young man soon learns that the trade secrets have very little to do with conventional marketing techniques. In fact, he has to unlearn everything he thought he knew about business. "The paradigm of network marketing is so fundamentally different and distinct from all other paradigms of business, that it requires a pretty complete shift from the way we normally view business to appreciate and understand it." The new paradigm is built around one's habits of thought and discovering that the secrets to network marketing success are within oneself. The values of responsibility, team building, and caring for one's downline play a much more important role than competitive promotion and advertising. A critical skill for all marketers is the ability to teach people to teach others. Once one has mastered the new paradigm of multilevel marketing, he needs to not only show his downline how to master it, but also how to teach those techniques to others. This leads to greater leadership within the organization, more stability, improved productivity, and as a result, long-lasting success.

The Art of Caring Leadership Heather R. Younger 2021-04-13 If your people know you care about them, they will move mountains. Employee engagement and loyalty expert Heather Younger outlines nine ways to manifest the radical power of caring support in the workplace. Heather Younger argues that if you are looking for increased productivity, customer satisfaction, or employee engagement, you need to care for your employees first. People will go the extra mile for leaders who show they are genuinely concerned not just with what employees can do but with who they are and can become. But while most leaders think of themselves as caring leaders, not all demonstrate that care in consistent ways. Your employees will judge you by your actions, not your intentions. Based on Younger's interviews with over eighty leaders for her podcast Leadership with Heart--including Howard Behar, former president of the Starbucks Coffee Company; Judith Simone, senior vice president and chief talent officer at McLife; Garry Ridge, CEO and chairman of the board of the WD-40 Company; and Shawnté Cox Holland, head of culture and engagement at Vanguard--this book outlines nine ways that leaders can make all employees feel included and cared for. She even provides access to a self-assessment so you can measure your progress as a caring leader. But this is not a cookie-cutter approach: just as Monet and Picasso expressed themselves very differently, each leader should express caring in his or her own unique, personal style. Younger takes an often nebulous, subjective concept and makes it concrete and actionable. Leaders have the power to change the lives of those they lead. They shouldn't just want to care, they should see caring as imperative for the success of their employees and their organization.

Humble Inquiry, Second Edition Edgar H. Schein 2021-02-23 This worldwide bestseller offers simple guidance for building the kind of open and trusting relationships vital for tackling global systemic challenges and developing adaptive, innovative organizations--over 200,000 copies sold and translated into seventeen languages! We live, say Edgar and Peter Schein, in a culture of "tell." All too often we tell others what we think they need to know or should do. But whether we are leading or following, what matters most is we get to the truth. We have to develop a commitment to sharing vital facts and identifying faulty assumptions--it can mean the difference between success and failure. This is why we need Humble Inquiry more than ever. The Scheins define Humble Inquiry as "the gentle art of drawing someone out, of asking questions to which you do not know the answer, of building relationships based on curiosity and interest in the other person." It was inspired by Edgar's twenty years of work in high-hazard industries and the health-care system, where honest communication can literally mean the difference between life and death. In this new edition the authors look at how Humble Inquiry differs from other kinds of inquiry, offer examples of it in action, and show how to overcome the barriers that keep us telling when we should be asking. This edition offers a deepening and broadening of this concept, seeing it as not just a way of posing questions but an entire attitude that includes better listening, better responding to what others are trying to tell us and better revealing of ourselves. Packed with case examples and a full chapter of exercises and simulations, this is a major contribution to how we see human conversational dynamics and relationships, presented in a compact, personal, and eminently practical way.
