And Still I Rise Maya Angelou
2013-04-04 A beautiful and inspiring collection of poetry by Maya Angelou, author of I KNOW WHY THE CAGED BIRD SINGS and 'a brilliant writer, a fierce friend and a truly phenomenal woman' (BARACK OBAMA). 'I write about being a Black American woman,

however, I am always talking about what it's like to be a human being. This is how we are, what makes us laugh, and this is how we fall and how we somehow, amazingly, stand up again' Maya Angelou Maya Angelou's poetry - lyrical and dramatic, exuberant and playful - speaks of love, longing, partings; of Saturday night

partying, and the smells and sounds of Southern cities; of freedom and shattered dreams. 'Her poetry is just as much a part of her autobiography as I Know Why the Caged Bird Sings and the volumes that follow.' Kirkus 'It is true poetry she is writing . . . it has an innate purity about it, unquenchable dignity' M. F. K. Environmental Learning

Mark Rickinson 2009-09-18
Environmental education and education for sustainable development have become features of many countries' formal education systems. To date, however, there have been few attempts to explore what

such learning looks and feels like from the perspective of the learners. Based on in-depth empirical studies in school and university classrooms, this book presents rich insights into the complexities and dynamics of students' environmental learning. The authors show how careful analysis of students' environmental learning experiences can provide powerful pointers for future practice, policy and research. Environmental Learning will be a key resource for educators, teacher educators, decision-makers and researchers involved in education and sustainable development.

Sustainable Development in the European Union 2021

Greening the Academy Samuel

Fassbinder 2012-12-30 This is the academic Age of the Neoliberal Arts. Campuses—as places characterized by democratic debate and controversy, wide ranges of opinion typical of vibrant public spheres, and service to the larger society—are everywhere being creatively destroyed in order to accord with market and military models befitting the academic-industrial complex. While it has become increasingly clear that facilitating the sustainability movement is the great 21st century educational challenge at hand, this book asserts that it is both a dangerous and criminal development today that sustainability in higher education has come to be defined by the complex-friendly “green campus” initiatives of science, technology, engineering and management programs. By contrast, *Greening the Academy: Ecopedagogy Through the Liberal Arts* takes the standpoints of those working for environmental and ecological justice in order to

critique the unsustainable disciplinary limitations within the humanities and social sciences, as well as provide tactical reconstructive openings toward an empowered liberal arts for sustainability. Greening the Academy thus hopes to speak back with a collective demand that sustainability education be defined as a critical and moral vocation comprised of the diverse types of humanistic study that will benefit the well-being of our emerging planetary community and its numerous common locales.

An African Elegy Ben Okri
2015-04-30 Dreams are the currency of Okri's writing, particularly in this first book of

poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*
